

Kore Smart Bot™ for Commerce

An Out-Of-The-Box Solution to Digital Transformation

Meet growing customer demand for a personal and consistent shopping experience. Turn more visitors into customers by reducing the time and effort needed to locate your products, find information, and make purchasing decisions. Increase customer satisfaction and loyalty by providing superior and memorable service at all times within every available service and support channel. In just 60 days, you can empower your customers to shop how, when, and where they want using a familiar conversational interface they know and love.

The Kore Advantage: Bots as the Future of Retail

- **Fully Optimized Natural Language:** Customers can interact with your brand and complete tasks as easily as they send a text. The more the Smart Bot is used the more it comes to understand user intent and requests.
- **Omnichannel Engagement:** Our Smart Bot works within the communication channels you choose - from Facebook Messenger to SMS and email to your website and mobile apps. Customers can start a conversation in one channel and complete it later in another channel with full context and a consistent UX.
- **Proven Platform Integration:** Built-in seamless integration with Demandware and SAP Hybris lets you simply and securely tap into existing platform investments. Easily integrate with other key systems using APIs.
- **Enterprise-Grade Security:** Meet strict compliance obligations with secure bot messaging and user authentication, built-in access controls, data retention, eDiscovery and more. All bot-based data is protected using the maximum encryption protocols available for each communication channel.
- **Comprehensive Administration & Analytics:** Easily manage your Smart Bot and the communication channels it is deployed to. Get real-time, actionable insights - giving you unparalleled insight into what makes your customers tick.
- **Personalize Your Bot:** Tell us your Smart Bot's ideal look and personality and we'll help you refine it to be a 24x7 brand ambassador.

What's Possible With Your Smart Bot for Commerce

Make It Easy to Get Started

- Greet and help customers
- Identify shoppers and set up new accounts
- Manage customer accounts

Provide Superior Service & Support

- Give instant and consistent support across all channels
- Answer frequently asked questions
- Bring in a human customer service agent (coming soon)

Keep Customers Up-to-Date on Orders

- Track the status of orders and shipping details
